## COMMUNITY INVOLVEMENT KEY ISSUE AT LAW ENFORCEMENT CONFERENCE

Community involvement in law enforcement and safety was the key issue at the Oxford County Conference on Law Enforcement and Public Safety, held at Telstar Regional High School on Saturday, Oct. 16. Keynote speeches by Martin Walsh of the U. S. Department of Justice, and Richard Cohen, United States Attorney for Maine emphasized the importance of a community partnership in seeking solutions to many of the problems traditionally dealt with by law enforcement personnel. Mr. Walsh stressed the relationship of hardware and software in such an approach to law enforcement, with hardware referring to consistent and effective law enforcement activity in dealing with crime, and software the many preventative measures that may be undertaken by community groups. Cohen, speaking from his years as a prosecutor in the Maine Attorney General's office, and his term as Attorney General, stressed the importance of community involvement in law enforcement.

### Cable TV Questionnaire

The prospective Bethel cable TV operator met with the Planning Board last week to review programming that would be offered to subscribers. While in theory 52 channels are available, limitations are imposed by the realities of tower construction, antennae and signal processing equipment. For a monthly charge of about \$8.50, not including a one-time installation fee, the operator would offer the following basic (Tier I) package (channel/offering): 6, NBC; 8, ABC; 10, PBS; 13, CBS, CBN, religious; Nickelodeon, children's programs; ESPN, sports; WTBS, movies and sports; CNN, 24 hour news; USA, movies and sports.

The operator proposes an additional (Tier II) program package that would be offered at a higher monthly rate, as follows: HBO, movies and specials; Cinemax, movies and specials.

If desired, the operator could substitute the following channels on a one-for-one basis for those offered in either the basic or additional package: MTV, music, rock and pop group; C span, Congressional coverage; Local access channel (town operated) to show meetings, etc.; plus time and weather.

What are your preferences for programming? A questionnaire has been prepared and appears at the close of this article. If you consider yourself a potential cable TV subscriber, please fill in your answers and return to the town office.

of musicians established the live-in, year-round Center for Chamber Music at Apple Hill Farm. The intervening years have brought immense professional growth, but the Players have not forgotten their counter-culture roots. They have combined the passion of a revolutionary generation with impeccable credentials and uncompromising dedication, to create a direct and intimate style of which Boston Globe critic Richard Buell has said, "It never sounded administered or hyped, nor did it have that missing-the-point quality of so much current chamber playing."

The program for the evening includes Fantasia in F, minor by Mozart; Piano Quartet in A minor, Opus 67, by Turina, and Quintet in A major by Schubert. The program begins at 7:30 p. m. The public is cordially invited to attend this concert — there is no admission fee.

## BETHEL OUTING CLUB MEETS AT TELSTAR GYM TONIGHT

With plans well underway for the second annual ski equipment sale, the Bethel Outing Club will hold its final organizational meeting at 7:30 tonight (Thursday) in Telstar Gymnasium. Last year's successful sale was the result of good planning and help from many volunteers. The club would like to see as many helpers as possible at tonight's meeting so that this year's sale, scheduled for Friday and Saturday, Nov. 5 and 6, will be even bigger and better.

## TWO PUBLIC HEARINGS ON PROPOSED BUILDING PROJECT SET FOR NEXT WEEK

Two public hearings on the proposed Woodstock school will be conducted next week.

On Tuesday, Oct. 26, a hearing will be held at the Telstar Lecture Hall beginning at 7 p. m., while the Woodstock Elementary School will be the site of a public hearing at 7 p. m. on Wednesday, Oct. 27.

At these hearings, floor plans of the proposed elementary school will be displayed, and there will be an opportunity for questions and answers with regard to the funding of the project.

## FREE WOOD HEAT WORKSHOP BEING HELD OCT. 28 AT BETHEL FIRE STATION

The subject of Wood Heat will be covered in a special free workshop class to be offered on Thursday evening, Oct. 28, from 6:30 to 9:30 at the Bethel Fire Station. The session is jointly sponsored by the S.A.D. 44 Adult and Community Education Program, the Bethel Fire Department, and the Oxford County Extension Service. Topics to be covered during the evening will be types of wood-burning appliances, their efficiency and installation, safe operation, chimney cleaning, and practical tips for economical operation. Presenters at the workshop will be Rocky Swain, manufacturer of stoves; David Brown, who is a professional chimney-sweep and a member of the Bethel Fire Department; and Rusty Clark, representing the Oxford County Extension Service, who will have copies of relevant publications for examination and distribution.

Cathy Newell, Director of Adult and Community Education in S.A.D. 44, commented on the timely nature of the Wood Heat Workshop, with the return of cold weather and the wood-burning season, as well as the tragic destruction of several homes in the Oxford County area resulting from wood-

heat related fires. Of less drastic consequence, but still serious, is the fact that the Bethel Fire Department was called out twice during the week of Oct. 12 for chimney fires. Wood heat can be a safe and rewarding move toward home-owner self-sufficiency, and those who wish to become acquainted with the subject, or to increase their knowledge, are urged to attend the Oct. 28 session.

The question being voted upon on Nov. 2, as indicated by the specimen ballot, is: "Shall the school directors of S.A.D. #44 be authorized to issue bonds or notes in the name of said district for a school construction project in an amount not to exceed one million, sixty eight thousand, seven hundred and no/100 dollars?"

## RESIGNATION OF FUDGE AS GOULD HEADMASTER ANNOUNCED BY TRUSTEES

Gould Academy's Board of Trustees has announced its acceptance of the resignation of Donald W. Fudge as the school's Headmaster, effective June 30, 1983.

In his letter of resignation Mr. Fudge stated that the Trustees have embarked on a strategic plan to re-state Gould's image, define its needs and prepare for the 1990's, that will result in a major capital fund drive to ensure the school's continuance as an institution noted for excellence. In Mr. Fudge's view the Headmaster would necessarily be an integral part of the process and should be at the school for the five or six years required for the process. In consideration of the foregoing and thoughts of his own future in education, the decision was made to submit his resignation.

Mr. Fudge, his wife, Dorla, and children, Coley and Tracy, have been a part of the Gould and Bethel community since 1977, when he was selected to succeed Richard J. Dolven as the school's Headmaster.

## Sunday River

— Jeannine Fleet, Corres. —

Mrs. Mary Morin, Ben Swan and Mr. and Mrs. David Fleet attended a pig roast Saturday night at Peggy Morin's and Bill Plapsis' in New Gloucester. The food was very good but the weather a little cool. Everyone had a good time.

Miss Heidi Burk was home for a few days from Green Mountain School in Vermont.

Miss Penny Fleet attended a Cross Country meet at Gould on Saturday. She came in first for girls and 10th overall.

Mrs. Enid Ramsey of Warren, is spending a few days with her daughter, Mrs. Mary Morin.

The Newry Mothers' Club will be having a Halloween party for all the Newry kids up through the fifth grade. This will be held at Rde Bartholomew's home on Bear River on Oct. 30 at 6:30 p. m. There will be a lot of fun and games for all.

Sent in by Viva Whitman:

We were lucky to have a few visitors to help fill the officers' chairs. Marion Easter was one of them, and as Lechner got up a nice program within a few minutes. Our next meeting will be Nov. 4, and we hope to see a good attendance.

Friday night we were off again. This time to Oxford Grange, where Joe was Secretary for the evening. We enjoyed the meeting which was preceded by a potluck supper, and attended by so many. The frost was sure on the pumpkin, and lots of other things this week. The beautiful flowers that Joe had are all gone. They lasted well, so we shouldn't complain. He has dug his dahlias bulbs and put them away. Maybe next year he will have just as many beautiful flowers as this year. We hope so anyway.

Mr. and Mrs. Bryce Yates returned home Monday after spending the week at Fryburg Fair. Barbara told of seeing a cattle truck overturn in front of her on the way home, killing a few of the cows. It is a shame, as only the best are taken to the Fair and cattle are worth so much now.

On Tuesday, Peggy left for a much needed vacation. She went to her daughter's house in Auburn first, to stay overnight. On Wednesday, she left for Colorado, to visit brother Tom. After several days there she plans to fly to Texas to visit with a friend for a week or so.

Wednesday, Joe and I went to Fryburg, by way of Norway and Bridgton, doing several errands along the way.

Bryce Yates brought a load of wood on Friday and Emily Saunders called.

Thursday was our meeting at Bear River Grange, preceded by a potluck supper. Not many there but we had a good supper and other Grangers, some taking other

## THIS WEEK AT THE MOSES MASON HOUSE

Forty fifth graders from Rumford visited the Moses Mason House this week focusing on life in the 19th century. They enjoyed a visit to the Museum, a slide talk on farming in the Bethel area 100 years ago and an opportunity to handle and discuss many objects from the past. Also this week Society Director Stanley Howe discussed with Miss Newcomb's Crescent Park School fifth graders life in early Bethel.

About 10 people are taking the six week Maine history course being offered by the Bethel Historical Society. The course will be meeting in the Eva Bean Research Room where so many Maine history materials are stored. There will also be a field trip to experience first-hand some of what is available in the study of Maine's rich historical heritage.

Copy for the Society's fall issue of the "Bethel Courier" will be going to the printers soon and is expected to be mailed to members and friends about the first part of November. The final proof for the 1983 calendar has been approved so it is expected to be available very soon. Be certain to keep an eye on this column for news of its arrival.

Officers' places for the evening. The literary program was a huge success, with music, jokes, stories and a humorous reading.

Saturday night saw us headed for Oxford again, where they were having a mock Hee-Haw Show. Joe participated in the show as a Doctor for several funny skits. It was a great show which all seemed to enjoy. Got home late again.

Sunday was a quieter day. Joe pulled his carrots and onions. Had a committee meeting in the evening, to see what we can do to get new members for the Grange and also money making ideas.

Hope to have another musical show soon at the Grange Hall to benefit the Grange. Hope everyone will watch for the date and come.

The Directors authorized the transfer of \$75.68 from the general fund to cover a Title II deficit existing since 1977-78. In the review of District records, the auditor had indicated that this method was the only way to remove the deficit.

The resignation of Phyllis Blake as a part-time custodian at Telstar was accepted.

Dr. Wayne Gersen, Superintendent of Schools, informed the Board that an additional six kindergarten students had been enrolled at the Bethel Bible School since teaching assignments were determined for the year. Because of the larger enrollments, some problems had surfaced. Several alternatives are being explored to alleviate the situation. Dr. Gersen also noted

## SENATOR COHEN From Washington

It is an indisputable fact that the population of the United States is getting older. In less than 20 years, the number of people 65 and older will exceed 31 million. Today, for the first time in our history, more than half the population is over 30 years of age.

One of the major issues stemming from the "graying of America" is how to best maintain the long-range financial stability of the Social Security system. Even if we succeed in solving the system's short-term cash-flow problem — caused in part by recent bad economic conditions — a major crisis looms in about 30 years, when the "baby-boom" generation reaches retirement age.

Early in the next century, Social Security Administration officials estimate that two of the system's trust funds—paying benefits to retirees, their dependents and survivors and to disabled workers—will be depleted, absent any changes in the present system. The reason is simple. While there are currently 3.2 workers for each beneficiary, population projections indicate that there will be only two workers for every retiree by the year 2020, not only because of the large number of retirees, but because of projected low birth rates. By comparison, 16.5 workers supported each Social Security recipient in 1950.

The Social Security system now pays out more than it takes in at the rate of approximately \$17,000 a minute. By July of 1983, the largest of the system's trust funds—the Old-Age and Survivors Insurance trust fund—may be unable to send retirement checks to some 32 million beneficiaries. If it is allowed to continue borrowing from the other two trust funds, as it does now, all three could run out of money sometime in 1984.

In the past, Congress has responded to problems in the Social Security system with "Band-Aid" solutions, such as juggling money from one trust fund to another. Suggested long-term reforms for the system have failed to win the bipartisan support which is needed for their enactment and implementation.

With time growing short for maintaining the system's solvency, hopes are pinned on the work of a bi-partisan 15-member task force appointed by President Reagan a year ago. With the job of proposing "realistic, long-term reforms" for the ailing system, the National Commission on Social Security Reform is the sixth such group to address the issue since 1977. Unlike the others, however, the Commission is the first to include Members of Congress, with seven of its seats held

## NOBLE REGRETS OPPONENT'S UNWILLINGNESS TO DISCUSS ISSUES

Senate Candidate Alanson "Mike" Noble regrets that Twitchell did not attend the Candidates' Night scheduled for Friday, Oct. 15, at the Oxford Legion Hall. The event was jointly sponsored by the Oxford County Democrat and Republican Committees. "I had hoped that Don Twitchell would be willing to come out and discuss the issues," said Noble. Noble has traveled extensively throughout the Senate District both as a Game Warden and now as a Senate candidate in the District #5 race. He is now returning to some areas for the third, fourth, and fifth time. "In my travels I have failed to see or hear that Don has been in the area. I think every concerned voter deserves a fair and equal opportunity to compare the candidates—both their qualifications and their position on the issues. Both the County Democrat and Republican Committees, in a spirit of co-operation, gave the voters an opportunity to compare these points. His failure to appear before the voters is consistent with Twitchell's performance and attendance record in the House," stated Noble.

Noble is retired from the State Department of Inland Fisheries and Wildlife. He has served the State of Maine for 25 years. During the last six years of his career he worked with the Legislature drafting and monitoring legislation. When making decisions, he carefully collects the necessary information before weighing and measuring the pros and cons. "What the bottom line is—what is best for Oxford County and the State of Maine?" Noble concluded.

by members of both parties. The Commission's unique membership may help it to succeed where others have failed. It is hoped that the unity exhibited by the 15 members will cause Congress to take seriously the recommendations that will be submitted next month. In addition, both Congress and the Administration now acknowledge that immediate action is necessary to assure young workers that the fund will be able to pay them benefits when they retire in the second and third decades of the next century.

Obviously we face some painful choices, but I believe that Congress recognizes its overriding responsibility to honor its commitment to those who have retired or are nearing retirement. In Maine, more than 10% of the population—some 140,000 people—rely on the Social Security system. I believe we owe them and the rest of the American people a system that is secure and equitable to those who pay into it.

## ENFORCEMENT CONFERENCE

continued from Page One  
ed the pervasive influence of crime in our society, going beyond the immediate victim, creating an atmosphere of intimidation and fear.

The 100 people attending the Conference represented many professions and agencies from a variety of towns in Oxford County, in addition to state agencies.

The concurrent sessions allowed participation in a choice of 16 small group workshops on topics of interest, including Courts and Sentencing, Coping with Adolescent Behavior, Families in Stress, Hand Guns, Drug and Alcohol Teams, Hazardous Waste, to Hate Activities and the Reappearance of the Ku Klux Klan.

Presentors included District Attorney Janet Mills; Wilmington, Vt., Police Chief Augustine Fernandez; New Hampshire State Police Sgt. Francis Donahue; Charles Sharpe, Dept. of Corrections; Telstar Principal Warren Bouchard; Joe Coffey, Dept. of Corrections; Jamie Morrill, Dept. of Mental Health and Retardation; Anita St. Onge and Maurice Harvey, Maine Criminal Justice Academy; Jim Wright, Lewiston Adult Education; Robert Bell, Maine Police Chiefs' Association; Gerald and Anita Talbot, and Addie Pontiff, Maine NAACP; Leonard Zakim, Civil Rights Director for Anti Defamation League; Steve Gottlieb, CMVIM; Thom Frye, Carlene Trotter and Becky Hardy, Tri County Mental Health; Gary Crocker, CMVIM; Rick McCann, Telstar; Howard James, publisher; Ted Kurtz, attorney; Don Mayberry, WOXO; Rep. Sue Bell; Janice Isley, Dept. of Educational and Cultural Services; Deedee McAllister, S.A.D. 17; Bette Ann Cushman, Maine Rape Counseling Project, and Edward McClure of U. S. Dept. of Justice.

Ben Conant of the Drug and Alcohol enforcement division brought an excellent display of materials on that subject, and the Sheriff's Department had information on personal protection available for handout.

Comments from those attending were very positive, including a statement by Robin Boyce, a Telstar Regional High School student interested in a career in law enforcement, who said that she was grateful for the chance to attend and never knew how many different things were involved in the subject of law enforcement and safety. Law enforcement personnel present were appreciative of the chance to discuss critical issues with those in other fields, and the exchange of points of view, although sometimes heated, was cited as a highlight of the day. Planning committee member Grace Emmerton from Norway commented that people she encountered were overwhelmed with the array of talent and expertise present, and the most often repeated comment at the end of the day

## WELCOMING PARTICIPANTS

to the Oxford County Conference on Law Enforcement and Public Safety, held at Telstar Regional High School on Saturday, Oct. 16, were Sheriff Alton Howe (left), and S.A.D. 44 Superintendent Wayne Gersen.

was that the task of choosing between sessions was too hard.

U. S. Attorney Cohen was an especially valuable resource at the Conference, delivering the afternoon keynote address, and attending all three concurrent sessions as a participant. Cohen commented on the unique nature of the Conference, and suggested that the design might serve as a prototype for other areas.

One of the outstanding features of the day was the wrap-up session, moderated by Ken Smith, S.A.D. 17 Superintendent, which gave participants the opportunity to address questions to Martin Walsh, Janet Mills and Richard Cohen, Addie Pontiff of South Portland, attending as a presenter in the Hate Activities sessions, made a moving statement on the need for all members of a community to appreciate differences, and not view members of minority groups as "problems to be dealt with" but as individuals to be appreciated. Other areas brought up in wrap-up included the new Task Force approach to Drug Enforcement which was described by Cohen, and discussion of how the Conference could be used to encourage specific school, community and law enforcement projects. Wayne Gersen, S.A.D. 44 Superintendent, commented that he hoped those attending the Conference would be willing to become community resources to be called on for future efforts.

The Planning Committee for the Conference will hold a final meeting next week to evaluate the project, and make recommendations for improving the model. Anyone who has suggestions to make should contact Barbara D. Brown or Cathy Newell.

## A. A. MEETING

Alcoholics Anonymous is a fellowship of men and women who share their experience, strength and hope with each other that they may solve their common problem and help others to recover from alcoholism.

The only requirement for membership is a desire to stop drinking. There are no dues or fees for A.A. membership, we are self-supporting through our own contributions. A.A. is not allied with any sect, denomination, politics, organization or institution; does not wish to engage in any controversy, neither endorses nor opposes any causes. Our primary purpose is to stay sober and help other alcoholics to achieve sobriety.

We meet every Wednesday evening at the Bethel Savings Bank, 8:00 p. m.

For further information call 824-2991 or 824-3145.

## Walking With Jesus Christ

The Bible would have us know that the prayers of Christians ascend up before God as sweet smelling perfume.

"In the beginning" the matter of offering sacrifices and prayers was made known to us—Cain and Abel made theirs. The Book of Exodus spells out in detail the proper procedures—the making of perfume, the tabernacle—furniture, inner and outer veils and priestly garments are but a few. Aaron's robe, for example had at its hem many small golden bells which tinkled as he ministered to God in the Holy of Holies. All this and more in "The Law of Moses" that the Israelites would keep their eyes on God.

But then—Jesus Christ came because the Israelite priests themselves became the law—losing sight of God—living under empty symbolism when the offering of sacrifices and the associated prayers were no longer pleasing to God. Jer. 6:20. Much had gone by when David prayed—Ps. 141:2 "Let my prayers be set forth, before thee as incense; and the lifting up of my hands, as the evening sacrifice."

Praise and prayer of the earlier Israelites was a type of the true worship God now loves to receive from his children. Now symbolism as in the Law of Moses even as carried out to this day is spiritually extinct in that Christ—gave himself up as a sacrifice to God for a sweet smelling savor." Eph. 5:2.

The failure of the Israelites op-

ened the way for the "whosoever will" to become children of God—John 3:16—and the joy of it all is—"For we are unto God a sweet savor of Christ, in them that are saved." 2 Cor. 2:15. Jesus said in John 17:16—"They are not of the world, even as I am not of the world." Christians should carefully consider this verse.

The heralding of the Christian life—Luke 1:5-26, began with the birth of John the Baptist at what appears to be the last notice of the burning of incense as given under the Law. Therefore we see in Romans 8—notably verse 3—"For what the Law could not do in that it was weak through the flesh, God sending his own Son, in the likeness of sinful flesh and for sin, condemned sin in the flesh."

Heb. 7:25—"Wherefore, he is able also to save them to the uttermost that come unto God by

him, seeing he ever liveth to make intercession for them."

Rev. 8:3—"And another angel came and stood at the altar, having a golden censer; and there was given unto him much incense, that he should offer it with the prayers of all saints upon the golden altar which was before the throne."

## BOG ROAD HIKING CLUB HAS CARIBOU MOUNTAIN CLIMB

Mr. and Mrs. Anthony L. Pugliese of Songo Pond, Bethel and Glead were hosts to the Bog Road Hiking Club at their Songo Pond camp on Columbus Day week end. The Hiking Club was preparing for this year's semi-annual climb - Mount Caribou.

The planning session on Saturday evening was followed with a delicious roast turkey feast prepared by the Puglieses.

Mr. Tony supplied transportation with his van to the climb site, Evans Notch—Rt. 113—Mud Brook Trail on Sunday morning.

It was a late start because some of the hikers insist on 12 hours of sleep.

The club members on this hike were: Miss Verone Flood, trail scout from Boston, Mass., and Florida; Miss Terri Romano, trail blazer from East Greenwich, R. I.; Miss Lynn Mary Munson from Narragansett, R. I.; Jack Baldwin from Narragansett, R. I.; Miss Ellie Pugliese and the Puglieses' dog, Wolfgang.

Mr. Baldwin used this opportunity to continue filming the sequel to his latest movie, Mountain. Miss Ellie met some friends on the trail from the South Portland Key Club.

Mr. Tony met the hiking party on the Bog Road exit of the Caribou Trail with ice cold apple cider and hot tea. It was greatly appreciated by all the day climbers.

Ms. Verone Flood and Ms. Terri Romano spent an overnight at the Caribou shelter. The temperature that night dropped to 31° F.

Ms. Romano commented that the recent rain and freezing temperatures made hiking in the early morning very slippery. She attributes these conditions responsible for her fall into Mud Brook.

The well prepared campers were back at the Songo Pond Base Camp by 9:30 a. m. Monday morning. All are looking forward to the next climb—Mount Moriah.

## Voting:

IT'S YOUR PRIVILEGE

by Merton Brown

Having been involved with the election process for several years it is always amazing to discover the number of people who don't vote, who don't know the mechanics of voting, or even more amazing those who have never registered.

In the State of Maine registering to vote has become easier than performing most other municipal functions. A person may register most anytime in communities with a population under 5,000 by applying with the Registrar of voters.

The hours of the Registrar may vary from community to community. In large towns and cities a person must apply to the Clerk or to the Board of Registration. Towns and cities, regardless of size are required to accept new registrations on the day of any election. This registration may take place at City Hall, Town Hall, or in small communities, at the polling place.

The registration process consists of giving a name, address, date of birth, place of previous registration, and a signature. At the time of registration the applicant will be asked about party enrollment. A voter need not enroll in a political party. The only election that requires party enrollment is Primary Elections. A voter may enroll in a party on Primary Election Day and vote. The voter must stay in that particular party for a three month period.

Determining residence is the eligibility requirement that creates the most difficulty. This is because of our highly mobile society and the fact that several people own

second homes. The election law has taken these factors into consideration and relies heavily on the applicant's intent.

For all practical purposes when the applicant states that a municipality is his or her residence, then it should be accepted. If a voter has moved from the municipality, but states that he or she intends to move back then that voter has the right to stay on the list.

Once on the voting list the voter only needs to appear at the polling place to cast a ballot. That procedure includes checking in with the incoming ballot clerk, marking the ballot, checking out with the outgoing ballot clerk, and depositing the ballot in the ballot box.

Absentee ballots are available to voters under several circumstances which may prevent voting otherwise. Those circumstances are: (1) absence from the municipality during the time that the polls are open; (2) physical incapacity not adversely affecting soundness of mind; (3) religious belief; (4) confinement to a jail or penal institution; (5) unreasonable distance from the polling place.

There are three ways by which the absentee voter may receive a ballot. The most convenient of the three is to appear before the Town Clerk and vote in person. The voter needs only to mark the ballot and sign the affidavit appearing on the outside of the ballot. Another option is to mail the ballot to the voter at the address specified on the application. This is accomplished by the voter requesting an application and ballot in writing to the Town Clerk. The final option is to have the applicant designate a person on the application who will then deliver the ballot to the voter. When using the mailed ballot method or the designated third person delivery method, the voter must complete the ballot in the presence of

# Letter to the Editor

Oct. 11, 1982

Dear Friends,

I am concerned about the future of the Maine Legislature, and you should be too! For years, the Republican-controlled Senate (currently with a one-vote margin) has been the only check and balance to an otherwise Democrat-controlled Legislature and executive branch.

This could easily change this fall—some are sure it will—and Alanson "Mickey" Noble may be the only person who can stop it. Labor leaders and Democrats want my seat, and with it, are sure they will control all branches of Maine State government. If they do so, they will elect their own Senate President, who will make all committee assignments, including chairmen. They will elect all the constitutional officers. They will make all the business and social policy of the state, unchecked.

They will also establish new legislative districts as a result of the 1980 census, unchecked. This will virtually ensure Democrat control of the Senate and House for years to come.

The state legislature is close to you and more important than ever. It will influence your life more than Washington, in the future. Alanson Noble is a life-long resident of our area and knows our people and our problems. He has worked in State government for over 25 years and has the experience to deal with the bureaucracy and the system. He has drafted legislation and worked with the House and Senate for its passage. We must elect Mickey Noble to fill my seat.

Thank you and "think about it".  
Best Regards,  
Roland L. Sutton

Oct. 14, 1982

I have personally known Don Twitchell and his fine family for over 20 years. When I first moved back to Maine he and his wife were instrumental in making it possible for me to use O.H.H.S. for my dance productions. I know Don Twitchell to be a sincere and caring individual.

The people in his district have elected him as their Representative five times—that's 10 years of service! He has earned the right to become our State Senator.

Don Twitchell does not use campaign rhetoric for the election weeks and then fade out of sight only to surface again when it's time for the people to vote. He is always available to help with problems—big and little—as his fine record shows.

That is why he is endorsed by United for Maine (an organization of hundreds of business peo-

ple). Maine LUPAC (life insurance underwriters) and Maine Merchants Assoc. The Maine Chamber of Commerce PAC—has provided financial support to Don Twitchell although it does not endorse any one.

His services go far beyond the call of duty as his record shows for all to see. He is concerned about all the people regardless of party affiliations.

This convinces me that Don Twitchell is the man we should vote for as our Maine Senator on Nov. 2nd.

Sincerely yours,  
Susan Farrar

To the Editor:

On Nov. 2, Maine voters will be asked for the second time in two years whether the state should close the Maine Yankee nuclear power plant in Wiscasset. In 1980, when the first referendum to close the plant was strongly defeated by Maine voters, many had hoped that we would not have to reconsider our majority opinion so soon. After all, this is a costly and time-consuming activity. We are, however, faced once again with the question of closing Maine Yankee, and I urge Maine people to again vote "NO" with as strong a voice as they did in 1980.

Maine Yankee is now in its tenth year of operation. During these 10 years, the plant's safety and environmental record have been outstanding. More important has been Maine Yankee's enormous contribution towards freeing the state from its crippling over-dependence on costly foreign oil. Without Maine Yankee, we would be forced to produce more of our electricity by burning millions of barrels of oil a year. This would be a great leap backwards for our state, placing us permanently at the mercy of a politically unstable Arab world. Even more tragically, a Maine Yankee shutdown would make meaningless all of our efforts for so many years to strengthen our Maine economy. Maine businesses and the people they employ are concerned over this potential threat to a strong, healthy and growing state of Maine. As someone who has worked hard to preserve existing jobs as well as create new ones, I share that concern.

Over the past few months, I've listened very carefully to both sides of the Maine Yankee issue. Each agrees that the added cost of a shutdown to Maine consumers will be enormous but disagree on what kinds of energy should—and can—replace Maine Yankee. I have come to the conclusion that no combination of non-oil or non-nuclear energy sources can even begin to replace the large power deficit created by a Maine Yankee shutdown. Developed to their fullest potential, these alternatives may help reduce our continued reliance on costly foreign oil but even then at a much greater cost than that of nuclear-generated electricity. Suggestions that these energy

sources are somehow less costly and in abundant supply are not supported by the facts.

Hydroelectric generation in Maine once served as its energy cornerstone but today new hydro-electric development of our rivers and streams is limited by economic and environmental constraints as well as conflicting recreational, scenic and energy values. Power available from Canada by the late 1980's may contribute to our efforts towards a diversified energy mix but not be available in significant enough quantities, at a competitive price, to replace Yankee. Furthermore, the State of Maine should not really rely heavily on another source of foreign energy which is subject to interruption, without warning, when national interests dictate. Conservation will continue to serve as a strong alternative to building more and more power plants but will do little to fill the enormous power deficit following a Maine Yankee shutdown. Conceivably, the government imposed "conservation" measures advocated by the anti-nuclear proponents could slow energy growth but only at the expense of our freedom to choose what kinds of energy we use and at what times. As someone who has continually fought to preserve that right to choose, I find this effort to eliminate the Maine Yankee option totally contrary to the spirit of Maine people. For nearly one full decade Maine Yankee has served our state well. Let's continue to keep all of our energy options open, not deny them. Vote "NO" on Nov. 2.

Sincerely,  
Margaret Chase Smith

To the Editor:

During our son's illness several years ago, Emily Saunders tried continually to get disability payments for our son Michael who had cystic fibrosis.

Michael depended on Emily to a large extent for encouragement and she always responded to his call.

We want to show this in order to help her return to the Legislature.

To the Editor:

We would like to take this opportunity to express our thanks to Don Twitchell of Norway, for the many ways he has helped us, not just once, but for many problems that we brought before him. He knew the people to contact and get results; he didn't hesitate to make many phone calls to Augusta and talk with the appropriate people that were able to help with the problems; he didn't say I will attend to it when I have the time, he did it then—showed ACTION when and where it counted.

Having read in last week's paper, an article from another resident of Albany, we wish to make

it known, that our opinion of Don Twitchell is very different, and many of our neighbors and friends in Albany feel the same as we do. He has performed his duties as Representative to the fullest, so what more could be expected.

Don Twitchell has the experience and has proven in every way, that he is there to represent and help the people in his District; it doesn't matter who it is, if they bring a problem to him, their problem is his problem, to assist in any way that he is able.

Therefore, Don Twitchell is the man to be chosen for the Senate seat for our District in November.

Sincerely,  
Evelyn & Don Brown

To the Editor:

A lot of nonsense has been written in the heat of an election campaign. You all have read some of it even in this fine newspaper. Some of it has even been repeated from past years as far back as 1978, and in last week's newspaper what appeared could not be true about the caring person involved. What is important is to keep in mind what is in the best interests of the people in Senate District 5.

Therefore I would like to urge all independent-thinking voters, whether registered as Democrats, Republicans or Independents, to support Rep. Don Twitchell, who has represented District 66 so admirably for the past 10 years in the House of Representatives. Don Twitchell is now seeking to represent Senate District 5 and needs the support of all the people in the district. Those who know Don are fully aware that he represents all of the people, irrespective of party affiliation, and I urge those voters outside House District 66 to make it their business to know him; for to know him is to support him as he has supported his constituents. He is a modest, sensitive man who cares about people, helping them to solve their problems.

Don is a man of experience, known for his integrity in Augusta and a man who has the respect of his colleagues of both parties. He has held important committee assignments and authored significant legislation in the House. For example: he presently has seniority on the Joint Taxation

## NEWS FROM ADULT AND COMMUNITY EDUCATION —M.S.A.D. #44

The S.A.D. 44 Adult and Community Education classes are engaging in some creative learning activities, in addition to regular classroom work. The Conversational French class, taught by Monique Rolfe at the Bethel Library on Wednesday afternoons, has scheduled two special sessions for the purpose of playing Scrabble in French. The Current World Problems class, offered for adult high school credit by Rod Abbott, is undertaking individual projects on topics of interest. One recent project involved researching the problem of teenage runaways, and interviewing the staffer on duty at the National Runaway Hotline. The Office Practice class, under the direction of Ralph Merrill, will visit the Business Education department at Region II in South Paris, for a demonstration of word processing in an upcoming class. Carol Littlehale's Sewing class in Andover hosted a representative of the Oxford County Extension Service for a special demonstration, and invited community members to attend.

The Energy Series and the Small Business Series continue at Telstar Regional High School throughout the month of October. The final session of the Small Business Series will be held on Wednesday, Oct. 27 with representatives from the State Development

Committee, and if elected, will be extremely important in future tax legislation. His experience and standing in the State will enable him to represent Senate District 5 in a far better manner than any amateur and newcomer.

We know Don Twitchell! His Republican opponent, until he decided to run for office, was a Democrat and thus is an unknown quantity.

I urge all Democrats, Republicans and Independents to vote in November for Don Twitchell, a man for all people, who deserves promotion from the House of Representatives to the Senate.

## Greenwood City

— Mrs. Colista Morgan, Corres. —

Gray pearly dawn, ending of night, and our road was silvered with the pond's mist. It lay in hands across the highway. Over the wet road the cars rolled through these sheets of fog. They ran at reduced speed and with their headlights on.

In a short time all that changed. As we ate breakfast, the sun was touching the mountains with a warm and innocent light, which brought out something lovely—the splendid patterns of color in a great Persian rug. The world was gaudy with the vivid, lavish hues of autumn foliage. It was a promise of a good day; one I had hoped for because two friends, Edward and Ruby, were on their way from Massachusetts to enjoy the Maine season.

They arrived here about 11 and in a short time I asked them if they'd like to climb the hill by way of the cart road in the farm fields and view the valley.

The grass was still moist from the morning mist but we didn't mind. So up we climbed.

All the fragile flowers had burned away; the new flowers now bloomed across the hills, the gold, the brown, the deep toned red; the shades of which are far beyond the eye to catalogue. It was as if

Nature had saved her richest brew for a last fling before her parting hours.

We saw October dancing on the pond's crest far down the hill. We stopped by the pasture gate and looked at the mountains, as I pointed out and gave the names of some and those which I had climbed. How beautiful the distant peaks were—long cathedrals, vaulted high and where singing creeks flow free.

I hope they enjoyed the walk and my little corner of the world. Maybe they will find pleasures and pleasures to remember until another time they visit Maine.

Club Eight met for the first time for the winter season at the home of Doris Hayes, on Tuesday.

Tonda Mills and a friend, Shapleigh, called on Sunday to see us and then went to see Frank and Dot Curtis.

Rena Bacon and Norma Heikkinen, West Paris, called on Fay Holt on Tuesday.

Denise Adams and son, Joshua, have been visiting her mother in New Hampshire.

I attended Retired Teachers at South Paris on Saturday.

Duane Hayes, West Paris, and Glenn Hayes, Gray, visited their mother, Saturday.

## North Paris

— Evaline B. Vatcher, Corres. —

A lovely week weatherwise, but the foliage is fast disappearing. In some places all the leaves are bare. The weather feels like Fall and the ball games are nearly finished, so Fall must be with us.

We picked the grapes Sunday and made juice, so now only carrots and beets are left to be harvested and one half of the wood pile.

Late Friday afternoon, we had a sudden shower, then two beautiful rainbows, the prettiest we have seen for a long time, but we didn't hunt for the pot of gold.

Eveline has been entertaining brought in for a whole week, but it didn't keep me from watching the "World Series". I went outside on Saturday.

Our last supper for the season was a bowling success and we were packed to the rafters. The last couple that came had to be refused, as we had only one piece of pie and a half a dozen biscuits, so the help divided the biscuits and scraped out the bean pot and went home for supper. We are grateful to each and every one who has cooked for us all summer, the patronage, and the kitchen and hall help, and to David Lyons for the care of the lawn, all these things help us earn money for the upkeep of the hall. Oct. 30, there will be a pot luck supper, free to Community Club members and the faithful who

cooked for the monthly suppers. Time is 5 p. m., and each family should bring an item of food.

After supper, the men will tackle the steel ceiling to remove the old paint, then to spray paint it. After the supper, several went to Wetherville, to the mock Hee-Haw that was put on by Oxford Grange. My niece, Arlene Abbott, Mexico, went with Doris Lawrence and Arnold Coffin and she was a lucky winner.

Joe and Norma Reidy of Tyngboro, Mass., and their daughter, and her family came to their trailer for the week end, and they came to our supper. They just love to eat up here, especially the eight year old boy. He says "lots of good things". They also gathered apples to take back home with them.

We are sorry to hear that Ellsworth (Skip) Curtis is very ill, and a patient at a Waterville hospital. I haven't heard from Stanley Roberts of Bethel lately, but I hope he is improving from his recent serious accident. He and his wife, Jacklyn, worked at Penley Corp. when I did in 1968-69.

Many loads of apples go by our house every day, and this week may be the final week in some orchards.

We were sorry about the fire of Mr. and Mrs. James DeShon of Cold Water Brook Road, Oxford. Mrs. DeShon was one of our girls. It must be a terrible feeling to wake up in the morning and not have a thing to call your own.

## MT. ABRAM RUNS DOWN REBELS 5-1

A revenge-seeking Mt. Abram soccer team took on the visiting Telstar Rebels Wednesday, Oct. 13 in Salem. In the past two years the Rebels have been the only ones to blanch Mt. Abram's undefeated record. But the Roadrunners were ready this time and after building a 4-0 half time lead, went on to a 5-1 victory.

Telstar's only score came just 24 seconds into the third quarter when Shawn Smith took a high pass from Rick Coulombe and half-volleyed it into the net.

Telstar outshot Mt. Abram 28-14 and led in corner kicks 4-2. Shane Morgan and Brent Deming combined for four saves in goal for Mt. Abram while Brandon Salway and Bryan O'Donnell stopped five for the Rebels.

## ST. DOMS NIPS TELSTAR 2-0

In a game that seemed to be an exact duplicate of their first contest St. Doms of Lewiston shut out Telstar 2-0. The weather, the score, and the type of game played by both teams were almost identical to a previous meeting of the same two teams.

As the game began in a cold, heavy rain, St. Doms scored just 40 seconds after the kick-off on a breakaway goal by Shawn Bell.

From that point on, Telstar controlled most of the play, outshooting St. Doms 30-11 and leading in corner kicks 6-1. But the Rebels could not score as the Saints played a strong defensive game and delayed the game on several occasions. Saints' goalkeeper Dave Laflamme, was impressive, coming up with 13 saves.

With time running out Rebel goalkeeper, Bryan O'Donnell, left the cage to add an extra man to the attack and Tony Delcourt scored the second goal as the game ended.

The Rebels end their regular season with a record identical to last season's 6-7-1.

## T.T.A.E.R.S. News (Tri-Town Ambulance &amp; Emergency Rescue Service)

The service attended the Mass Casualty Course offered on Sunday, Oct. 17, at Stephens Memorial Hospital. Other personnel not able to make it that date will attend the same course on Sunday, Oct. 31, at Telstar, Bill Severance, Jr., of Stoneham Rescue was the instructor for the course. Plans were discussed between ambulance services as to how to handle a mass casualty involving more than say 14 injured patients at a time. Then the participants went through a primary triage station, deciding which "injured" patients were most in need of hospital care, and those that could wait a while.

The auxiliary had a very successful day at the Legion Hall Craft Fair. Thanks to everyone who contributed crafts or food for the sale. The ambulance personnel took 57 blood pressures during the day at the Legion Hall in Locke Mills. The Booster Club supper is scheduled for Saturday evening, Oct. 23, at 5:30 p. m. at the Locke Mills Legion Hall.

**Safety Tip of the Week:**  
Children love to jump into piles of leaves. As a parent, please be sure that nothing extraneous or harmful is at the bottom of the pile of leaves. As an adult driving on roads, be extra careful with piles of leaves near the road. Children may run into them, slipping into the road or may be

hiding in an innocent pile of leaves.

## NOTES FROM Evans Notch

White Mountain National Forest

At this time each year, personnel on the Evans Notch Ranger District of the White Mountain National Forest prepare timber sales. In this week's news note we will provide a capsulized view of the process.

The U. S. Forest Service is charged by Congress to manage National Forest resources, including timber, for the citizens. Following identification of opportunities to harvest, public involvement takes place and project analysis is done by specialists in silviculture, soils, water, engineering, wildlife, cultural resources, aesthetics and recreation. The decision maker then reaches a decision in accordance with the National Environmental Policy Act.

Once the project is approved, rights-of-way are obtained; landlines are marked; roads are surveyed and designed; cultural resources are evaluated; and harvest unit boundaries are painted. With boundaries in place, certified timber markers paint each tree designated for harvest. Priorities for selection depend on the harvest system and silvicultural prescription to be employed. In general, trees with the following characteristics are marked first: high risk, low quality, mature, and immature—when found in an overcrowded condition. Following tabulations of volumes to be harvested, an appraisal, contract, and advertisement are prepared.

Sales are awarded to the highest bidder. The contract provides for protection of resources as well as for the timely harvest of products. Contract length averages from one to four years. 25% of the gross receipts are returned to local units of government for use in school and road systems. The remainder goes to the U. S. Treasury.

Closure of the sale involves the following:

## Northwest Bethel

- Clarice Gibson, Corres. -

Not too good a week for doing outdoor chores. Some afternoons it dried off so one could get into the garden. Still had beans (baking), carrots, beets, turnips, and cabbages; also the storm windows needed putting this fall, and then paint where one puttyed. I don't like to do this either unless it is sunny. Sunday, Frank, George, and I headed for Rangeley to close up Frank's sister Bobby's camp, as with their mother sick, she wouldn't be able. Old Speck's top was lost in a storm and one could see quite a bit of snow had fallen beneath the snow clouds and still falling. The bright oranges and reds had mostly gone but the muted shades of browns, yellows, and of course, evergreen trees still gave us some enjoyable scenes. It was spitting snow all the way up but no appreciable accumulation on the road. At some points one could look in the woods and realize what was in store for us.

Friday, Aunt Sarah Andrews, Albany, went to Norway shopping and had dinner at the folks, Mr. and Mrs. George Allen.

Wilfred called Saturday morning saying he would be moving from his barracks and Ira called this morning from Japan. He left for Japan earlier in the week. Dan Hamon, Amy and Mary Beth had Bobby and Mary Myers for a cook-out that day.

Frank and Sid Murphy got the last of their garden harvested on Sunday.

Bob Howe butchered his two turkeys that he had raised during the summer to put in the freezer this week end.

Joyce and Bob Stearns attended the seminar on law enforcement at Telstar, Saturday.

John Laban had last week off from work, and Matthew Laban was around last week selling magazine subscriptions for the school.

Abides within my heart;  
A well of deep serenity,  
Untroubled, set apart.

From all the outer world's unrest;

I find Him waiting there.  
A little pool of quietness  
Set deep within the Rock

The Rebels put the game away in the early going as they scored three goals in the first 11 minutes of the game to take a 3-0 lead into half time.

Joyce Gauthier got the Rebels on the board when she scored at the four minute mark on a pass from Gould.

Gould then made it 2-0 just one minute later as she scored an unassisted goal off a corner shot.

Six minutes later, at the 11 minute mark of the first half, Penny York scored on a pass from Gauthier.

Gould closed out the scoring at the 21 minute mark of the second half as she put an unassisted shot past Oak Hill goalie Linda Morin.

Morin had another strong afternoon in the net as she blocked 13 shots for the Raiders while Jodi Seidel stopped three shots while recording the shut-out.

hundred fifty dollars (\$1,068,750) to construct a new elementary school to be located in Woodstock, Maine on land of Cleo Kerns on Rumford Avenue?

A "YES" vote on this question indicates support for the school district to sell bonds to help raise 95% of funds required to build a new school. The revenue accrued from the sale of bonds, combined with locally raised funds of \$56,250, will provide S.A.D. 44 with the \$1,125,000 needed to replace the existing Woodstock School. The cost of these bonds, and the interest on bond payments would be reimbursed by the state over the next 20 years, given the existing funding mechanism.

In addition to the question previously listed, the ballot will contain the following five items, as required by Title 20 of the Maine State Law:

(a) The initial local share of the total cost of the new elementary school is 5% of the total cost of one mill multiplied by the District's state valuation, whichever is less.

(b) The actual initial local share of the cost of the new elementary school is Fifty Six Thousand Two Hundred Fifty Dollars (\$56,250). The initial local share will not be borrowed but will be paid from funds available to the District.

(c) The entire additional operating costs of the new elementary school during its first two years shall be borne by revenue raised by the district.

(d) The estimated amount of the additional operating costs of the new elementary school during each of its first two years is zero.

(e) The rate of reimbursement from state General Fund revenue sources in the year in which the new elementary school received concept approval (1982-1983) is 60.24%.

Sections (a) and (b) deal with the initial local share. According to the funding law the school district must raise 5% of the total cost of the project, or one mill of the district's valuation, whichever is less. For S.A.D. 44, the initial local share will be \$56,250, which represents 5% of the total project cost. As stated in section (b) this initial local share may not be borrowed, but must be paid from locally raised funds. These funds may be spread over the period of time that school construction takes place. Conceivably, then, the local share could be spread over three fiscal years.

Sections (c) and (d) require the school district to indicate that the school district must pay any additional operating costs incurred as a result of school construction, and requires that those expenses be summarized. As section (d) indicates, the construction of the new elementary school will result in no additional operating costs. Indeed, because the new building is more energy efficient,

# WEST PARISH CHURCH HOSTS BELL CHOR

This Sunday's worship service at the West Parish Congregational Church will be a time of special opportunity as the Handbell Choir of the Wilton Congregational Church shares in the service.

The choir, under the direction of Nancy Cureton, consists of 10 young people, each playing several bells. They will have a major part in the service, sharing seven numbers.

Following the service, the congregation will host the bell ringers at a pot luck lunch. The West Parish Church is pleased to welcome this group of dedicated young people, and invites all interested listeners to join in Sunday's activities.

there will be a reduction in the costs to the school district once the school is complete. As described in last week's Superintendent's Newsletter, savings over the next 20 years are conservatively estimated at a quarter of a million dollars.

Section (e) indicates the percentage of funds received by S.A.D. 44 from the state during the current school year. This documents S.A.D. 44's status as a district that receives a considerable level of state support, and verifies that, under the current Education Finance Act, S.A.D. 44 will receive 100% reimbursement for the cost of the principal and interest associated with the sale of bonds.

As outlined in last week's Superintendent's Newsletter, the Board reviewed the long range cost implications of school construction before reaching its decision to place this referendum question before the voters of S.A.D. 44. All evidence indicates that a "YES" vote will, clearly, save taxpayers tens of thousands of dollars in the coming years, and will provide the students in S.A.D. 44 with a safe, energy-efficient school building.

If you have any questions on this ballot, questions on the funding of the school, or questions on the school itself, I urge you to attend the public hearings scheduled for Oct. 27 at Telstar Regional High School and Oct. 28 at Woodstock Elementary School, or to ask a member of the Board of Directors.

# FROM THE TOWN OFFICE

preferences and turn in or mail the clip-out form to the Town Office. Results will be tabulated and used as the basis for negotiating programming additions or changes with the prospective cable TV operator.

# Cable TV Prospects

The prospective vendor proposes to offer cable TV service to the Bethel Village, Paradise and Vernon Streets out to their mutual intersection, Route 5 for about one mile south of Mill Hill Road, Route 26 to Locke Mills, one mile on Middle Intervale Road, Mayville as far as the Barn Motel, Route 2 from Bethel Village to a half mile past the West Bethel Flat Road, and one mile south on the Flat Road. The proposed coverage is based on the vendor's formula of having a housing density of 15 houses to the mile. Those not in the areas of coverage could obtain service by paying the cost of cable and installation or await expansion by the operator in future years.

After programming, the major item requiring resolution is the franchise contract. This document is extremely important since it governs the day-to-day operating relationships among the Town, subscribers and cable TV vendor for such things as standard of service, rate changes, etc. Instances abound with Towns that are having problems with cable TV installation and service have placed the cause with an incomplete or poorly worded franchise that abrogated the Town's ability and right to appropriately control cable TV operating service standards.

It is expected that these and other matters can be concluded with the prospective cable TV vendor by year's end. "Head-end" antennae and cable run designs would be completed by spring and cable would be installed during the summer. According to the prospective cable TV operator, service could begin in customer homes by early fall of 1983.
